## Cessna Skyhawk N44CU Check-out Workshop

SPAFC members, begin getting checked out in the club's newly acquired Cessna 172N Skyhawk. This half day session will introduce you to the flight characteristics, avionics and resources so you can enjoy N44CU. The workshop will be particularly valuable to those of us who learned to fly with traditional analog instrumentation and are new to glass cockpits. We will review:

- ◆ Aspen EFD 1000 Pro Max Primary Flight Display
- ◆ Garmin GTN 750xi Navigator
- ◆ L3 Lynx 9000 multi-function Transponder
- ◆ JPI 9000 Engine Monitor
- ◆ Century 2000 Auto Pilot
- ◆ Performance information, 180 HP Superhawk engine upgrade
- ◆ SPAFC Checkout Quiz

**Sat. May 18, 2024**

**9 am to noon.**

Stevens Point Municipal Airport Conference room.

You are encouraged to bring a **laptop or tablet** in order to access the online resources that will be referenced. Links for the resources will be sent in advance of the workshop.

There is no charge for this workshop for Stevens Point Area Flying Club members, but registration is required.

The workshop will be led by CFI Gary Olsen.
