

# SPORT PILOT GROUND SCHOOL

## Winter 2026 Learn to Fly—Stevens Point

### Interested in:

- Becoming a Pilot,
- Passing your FAA written Exam,
- Enhancing your aviation knowledge?

Join FAA Certified Flight Instructor Gary G. Olsen for a fun and effective journey towards earning your pilot's certificate. Classes start **Monday, January 12, 2026 at 6pm at the Stevens Point Municipal Airport** The 9-week course uses the FAA's *Handbook of Aeronautical Knowledge*, Gleim's *FAA Knowledge and Test Prep Manual*, Rod Machado's engaging and accessible *Private/Commercial Pilot Handbook* graphics, and more...

### What you will learn...

Via clear and detailed graphics, simple memory aids, understandable analogies, and great discussions, this class simplifies the complexity of learning to fly through various topics, including:

- Aircraft Components
- Aerodynamics
- Flight Instruments
- Airspace
- Airport Operations
- Weather
- Navigation and Flight Planning

We will be working on actual FAA pilot test questions and you will learn how to effectively take the test. Pilots, rusty pilots and future pilots are encouraged to attend.

**To register for the class or for further information please email:**
